

## Dental Instruments

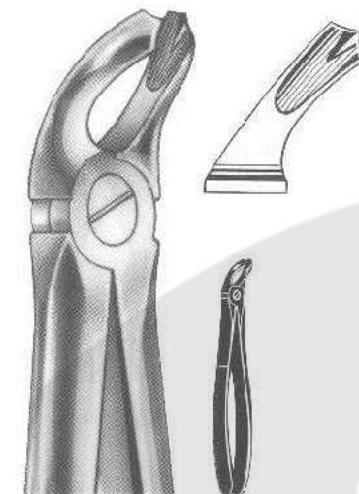

The manufacturing of surgical instruments has a long tradition at Kadimson International - keeping in mind that Kadimson International was and is pure instrument manufacturer at the time when the company was founded. Our claim has remained unchanged to the present day to manufacture instruments of the highest quality.

## Root Elevators

lower jaw, left side

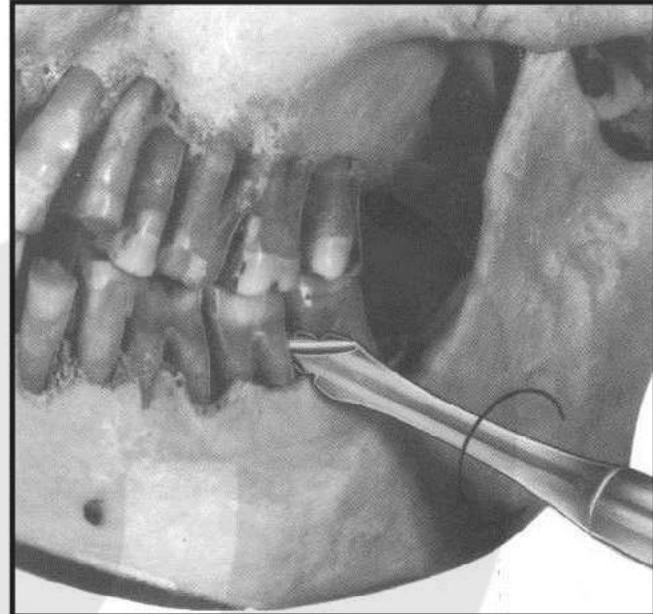

lower jaw, right side

1200

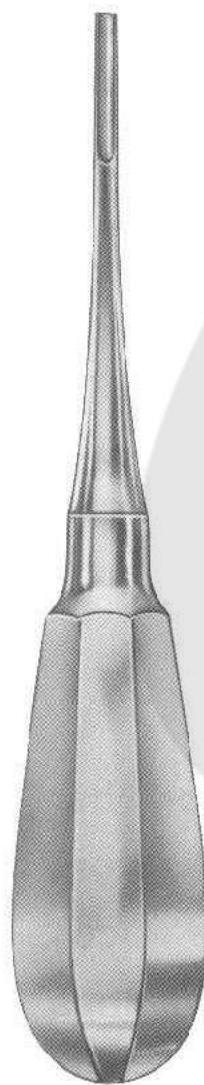

1201

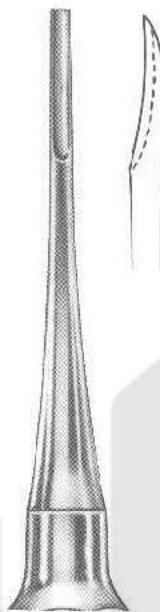

Root elevator, spiral-shaped, for extremely facilitated extraction of the molars in the lower jaw. The slender, conical points allow deep penetration between tooth and gum. Owing to the hook-shaped working parts, slipping of the elevator is avoided.
